Dear Michigan Supreme Court,

I'm a Michigan resident of 58 years, of them I worked 40 plus years. I recently heard that a petition before the Michigan Supreme Court, pertaining to the asbestos industry's may take my rights away to have a jury trial. I am a Viet Nam veteran awarded the purple heart and disabled. As a Michigan resident I'm upset with the Big Businesses trying to take away my constitutional rights. Not only big businesses but also certain political groups are using Michigan and the Michigan Supreme Court as tools to deny people their constitutional rights.

The constitution states that judges are not to make the laws but rather interpret the laws. I am sure that our men and women fighting and dying over in Middle East would be very upset knowing that groups in their own country are attacking their rights. When wars are fought it's the young men and women that fight to protect the homeland and constitutional rights not big businesses. Big businesses seem to benefit.

I hope that the Michigan Supreme Court rules for the people, and not by political parties or big businesses.

Sincerely,

David Polczynski
